

# Generating the Results of Study (RoS) Notice

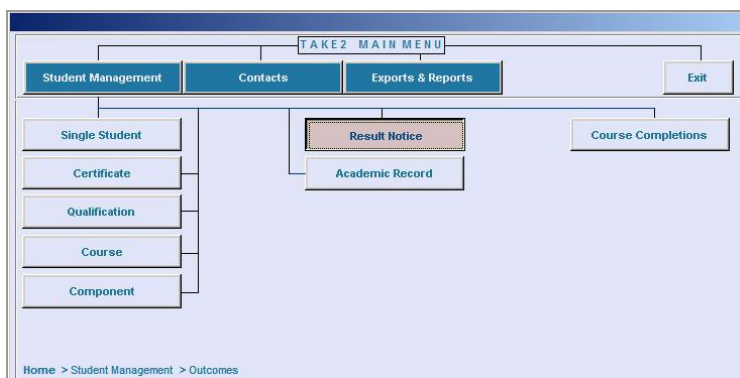

## Overview

The RoS notice lists a student's course enrolments for courses in the Course Register and shows an outcome based of the course completion code which, from October 2006, is used by StudyLink when determining Student Allowance eligibility. Where possible an overall outcome is determined based on the proportion of "Passed" and "Not Passed" EFTS.

StudyLink has worked with Meta Office on the RoS Notice format but, of course, neither StudyLink nor Meta Office can control how the Notice is used. Accordingly StudyLink have asked us to make the following statement: "In early October 2006 StudyLink commenced an automated Data Match with the Ministry of Education's SDR to determine whether a student has passed over half of his or her course. The above notice is not a replacement for that match. Where exceptions occur, the above notice is acceptable as support for StudyLink's Statement of Satisfactory Progress form. StudyLink will still seek to validate the information through the SDR."

## Generating the Results of Study

1. Click on the **Student Management** button.
2. Click on the **Outcomes** button.
3. Click on the **Result Notice** button.

4. Set the applicable filters.
5. Click on the **Filter** button.
6. Select the students with which to print the RoS for.

7. Click on the **Results of Study** button.
8. A dialogue box will appear reminding you that all course completion outcomes are up to date and final codes have been assigned to all course enrolments.

9. Click on the **OK** button.
10. A dialogue box will appear asking if any of the students for which a RoS notice is being generated has had a study break.
11. Click on **Yes** or **No** as applicable.
12. If any of your students have had a study break, you will be required to specify the dates of the break. A default date can be specified for all students.

**Results of Study: Student Study Breaks**

Enter the dates of each student's study break; Default values entered will be copied to ALL listed students, whose enrolments spans these dates. Click continue to generate the results of study reports.

Default Start Date:  Default Finish Date:

Student's Name	Enrolment Start	Enrolment Finish	Study Break Start	Study Break Finish
▶ Beans, Frank	20/02/2006	15/12/2006	06/06/2006	20/06/2006

13. Click on **Continue** button to proceed.
14. The Results of Study Notice will be generated.
